THE DETAILS

The property

“Our admiration towards the shark was our main incentive” Sharks need to swim constantly to keep oxygen-rich water flowing over their gills, they must always move forward. In the same way, this project raises the bar in all possible aspects, forcing the rest of the real estate developers to act forward, progress and evolve. A true monument to the predator that has ruled the ocean long before we were here. This is the reason why our main priority is the responsibility to save these endangered species. To conceive the soul of a structure with this magnitude, it was imperative to combine the experience of different areas such as architecture, design, technology, science, and biology. The result is an architectural style with a noble proposal that changes the conditions in which people want to live, allowing nature to manifest with grace in every detail. Shark tower offers 134 condos on 20 floors. Evolve to the best chapter of your life. Shark tower is in Puerto Cancun.
