AT A GLANCE

Highlights

Beach Club · Coworking Space · Fire Pit · Front Desk · Gardens · Gym · Lobby · Pools · Spa & Wellness Center

THE DETAILS

The property

Sometimes we are so absorbed in life that we forget to stop and meditate about our next steps. It is time to reflect and remember that we must slow down to contemplate and enjoy nature.

In order to become aware that life is here and now, and everything is how we allow it to be.

The Slow Living vision promotes a balanced holistic well-being lifestyle; it celebrates the profound connection among all living beings through the creation of communities that share new values and beliefs system on full awareness in the present in order to slow down the busy pace of our current life.

SLOW Living implies generating environmental, financial, and social benefits to reduce and compensate for our carbon footprint. When we slow our lives down, we use fewer resources and produce less waste positively impacting the environment.

Tulum is the most symbolic site on Quintana Roo's coast a mystical ancestral place where one of the most beautiful vestiges in Mayan Culture is located (one that has remained intact for over 1,000 years).

It is a location blessed by its extended underground river system where magnificent "cenotes" and crystal-clear lagoons are born and considered a unique heaven on earth.

Located in Selvazama, this new urban area integrates innovative architecture and sustainable design, creating a lifestyle within an active community that is genuinely concerned with nature.

Cardinal contemplates a group of social and recreational amenities created to maximize and supplement their inhabitants' experience wherein an active Slow Living philosophy will be promoted.
