24 Hour Security · Elevator · Green Areas · Grill Area · Gym · Indoor Parking Lot · Infinity Pool · Sun Beds

The property

Galia Cozumel introduces a modern collection of thoughtfully designed residences in one of the island’s most desirable central locations. This boutique development blends contemporary architecture with the relaxed coastal lifestyle Cozumel is known for, offering spacious interiors, high quality finishes, and sweeping views of the ocean, jungle, and city depending on the unit type.

Each condo is crafted with comfort and functionality in mind. Layouts feature open living and dining areas, fully equipped kitchens with premium appliances, generous bedrooms with built-in closets, and private balconies that create a natural connection to the outdoors. Details such as quartz countertops, Tzalam wood accents, Rochelle marble elements, and anti-skid materials in the bathrooms highlight the project’s commitment to durability and style.

Residents enjoy an elevated amenity collection that includes a rooftop infinity pool overlooking the Caribbean Sea, a sunbathing terrace, a modern gym, green spaces, a grill area, a dive wash station, 24 hour security, elevator access, and indoor parking. The building’s central location places you only minutes from Cozumel International Airport, the ferry terminal, and some of the island’s most celebrated beaches, cultural attractions, and dive sites.

Galia Cozumel offers a refined island living experience with a balance of privacy, convenience, and contemporary design. Its setting, craftsmanship, and amenities create a welcoming environment for those looking to enjoy the best of Cozumel’s natural beauty and vibrant coastal lifestyle.
