Description

This three-bedroom condo in Playa del Carmen offers 1,023 square feet (95 square meters) of construction with a practical layout designed for comfortable everyday living. The residence includes three bedrooms, two full bathrooms, a private terrace and one parking space, with the bedrooms arranged separately from the principal social areas.

The integrated kitchen connects directly with the dining and living spaces, creating an open central area suited to both daily use and entertaining. A dedicated service patio adds useful functionality, while mini-split air conditioning provides additional comfort throughout the home. The private terrace extends the living space outdoors.

The property forms part of a residential community on the southern side of Playa del Carmen, with access to shared recreational areas, including swimming facilities, sports areas, a gym, children's spaces and landscaped common areas. Its location provides convenient road connections to central Playa del Carmen as well as destinations farther south along the Riviera Maya.

Residents are within driving distance of Playa del Carmen's beaches, shopping, restaurants and Fifth Avenue, while nearby access to the regional highway makes it straightforward to reach Xcaret, Puerto Aventuras and other destinations along the Caribbean coast.
