The property

Casa Mia offers a rare combination of generous land, private outdoor space, and a three-level layout within El Cielo Residencial in Playa del Carmen. The residence provides approximately 2,196 square feet (204 square meters) of construction, with three bedrooms and three and a half bathrooms. Mexican architectural details and natural stone finishes give the home a distinctive identity, while a second-floor terrace extends the living space outdoors and provides a comfortable setting for everyday use or entertaining.

A private swimming pool and garden occupy much of the outdoor area, creating a practical connection between the home and its surroundings. The property also provides parking for up to four vehicles, an important benefit for a home of this size.
