This intimate development features three elegant 4-story towers, each housing just two apartments per floor, with a total of eight residences per tower.

Sustainable Living, Today and Tomorrow

At Kim Koba, our focus is on creating environmentally friendly urban spaces to reduce reliance on rural areas, and to ensure that current residents can enjoy a high quality of life without compromising future generations.

The community is thoughtfully designed with expansive roads, bicycle paths, green spaces, controlled access points, and 24/7 security.

Innovative Apartment Living

Each luxurious Kim Koba apartment boasts two bedrooms, two full bathrooms, and a laundry room. The open-plan living and dining area is complemented by a fully equipped back kitchen and an additional laundry area, available in two distinct models.
