THE DETAILS

The property

Maranta’s 1-bedroom residences offer a refined beachfront lifestyle in one of the Riviera Maya’s most secluded and naturally preserved bays—Bahía Soliman. Ideal for individuals or couples seeking a peaceful escape with resort-style amenities and smart design, these limited units deliver both comfort and long-term value.

Thoughtful Interiors with Ocean-Inspired Finishes

Designed with a modern coastal aesthetic, each 1-bedroom unit features a spacious open layout combining kitchen, dining, and living areas. Finishes include natural travertine marble, beige granite countertops, and soft-toned tropical wood cabinetry. Subtle design elements like yute-accented walls and matte black fixtures add texture and warmth to the space.

Select floor plans include dual terraces with lush mangrove views or partial sea views—perfect for enjoying sunrise coffee or evening breezes. At approximately 55 to 70 m² in size, these residences balance simplicity and sophistication without excess.

Amenities That Elevate Everyday Life

While compact in footprint, these residences come with full access to Maranta’s boutique amenities:

- Beachfront pool and jacuzzi
- Private beach club with kayaks, paddle boards, and snorkeling gear
- Gym, concierge, and social terrace with bar
- Elevator access and secure entry

This is effortless coastal living—no large crowds, no distractions, just direct access to nature and calm.

An Intimate Setting Near Tulum
