THE DETAILS

The property

Perfectly designed by Lavalle Peniche® for travelers in search of energy and adventure, Peregrina is a condo-hotel development with 51 housing units distributed between organic paths and terraces brimming with nature and with access to all the multisensory amenities that Peregrina offers.

Hidden among rocky dunes, we find Tulum, the ancestral sanctuary of ‘zamá,’ the sunrise. Owner of world-famous beaches, Tulum is a magical territory of ancient energy that attracts culture and overflows with nature.

Surrounded by green jungle and white sand, sacred paths lead us to Peregrina, the new secret of Tulum, a destination that offers temples and experiences that only the Caribbean and Mexico can offer.

A short bike ride takes you to reconnect with nature in the archaeological zone or to enjoy the sea breeze on beaches admired worldwide. Peregrina is a unique development that unites harmony and tranquility, providing an environment fused with the precision of the ancient Mayan civilization that culminates in the architecture of its entrance and clubhouse, designed by the acclaimed Estudio Macías Peredo.
